YARDS AT CARBON AND SWALWELL

LITTLE ITEMS OF LOCAL INTEREST

Mrs. Alf Govin of Rosebud took in the Carbon Chautauqua.

Miss Vera Poxon came out from Calgary last Friday and returned on Sunday.

Mrs. Morrison and son are visiting with Mrs. Morrison's parents, Mr. and Mrs. J. E. James.

Miss Daphne Nash spent the week end at her home in Carbon.

Mrs. Gatine is visiting with her daughters, Mrs. C. Knisely and Mrs. K. Clarke of Swalwell.

Mr. and Mrs. Thos. Moss of Swalwell took in the Chautauqua this week.

Mrs. A. Reid expected to leave for the coast this morning, where she will spend a holiday.

Miss M. Becket and Miss Verda Gore, of Swalwell, took in the Chautauqua this week, staying with Mr. and Mrs. Roy Wacker.

Mr. and Mrs. Geo. Sterling of Hesketh also took in the Carbon Chautauqua this year.

Speaking about Chautauqua it may be well to mention that the Carbon committees done well this year and the season ticket sale was well over \$1300 this year. The contract for the season 1930 has also been signed by about 60 people and this assures Carbon and district of Chautauqua next year.

That great picture "The Garden of Eden" will be shown at the Carbon Theatre on Friday and Saturday of this week.

Messrs. A. F. McKibbin and F. J. Bessant motored to Lethbridge on Tuesday to attend a Masonic convention.

Henry Johnsen, who has secured the contract to move the old Bank of Toronto building and the old Post Office building, commenced work last week with a gang of men and he has the former building moved to its new location near the Masonic Hall. The latter building is being moved to the location where the Bank building stood. As soon as the lot where the old post office has been cleared, it is expected that excavation work will commence for the new Elks Community hall.

CARBON GOLFERS VISIT IRRICANA FOR PLAY-OFFS

A number of Carbonites motored to Irricana on Sunday to participate in the Herald play-offs for this district, among the number being Messrs. A. F. McKibbin, F. Bessant, G. Peters, E. J. Rouleau and J. J. Greenan. Others visiting Irricana that day were Mrs. Greenan and family, Mr. and Mrs. S. F. Torrance and family, and Mr. and Mrs. A. McLeod.

Those playing golf had a real enjoyable time in spite of the rain that day and the following scores were turned in as the first half of the play offs, the remaining 18 holes to be played on the Carbon course next Sunday, if possible:

P. Hallam, Irricana, 86; J. J. Greenan, Carbon, 94; E. J. Rouleau, Carbon, 94; F. Bessant, Irricana, 95; H. Miller, Irricana, 96; F. Bessant, Carbon, 99; F. Campbell, Irricana, 100; B. Hay, Irricana, 101; H. Honens, Irricana, 103; A. F. McKibbin, Carbon, 109; D. Howell, Irricana, 111.

CARBON SPORTS DAY AND STAMPEDE, JULY 1 AND 2

Extensive preparation is now under way for the Carbon Stampede and Sports Day, which will be held this year under the auspices of the Carbon Lodge No. 195, B.P.O.E., the proceeds to be in aid of the Elks Community Hall. The celebration will be on for two days and is to be the best ever held in Carbon. The first day, July 1, will have a program consisting of a parade, Athletic sports, junior and senior baseball, etc and gold prizes will be offered in all events. The program of the second day will commence in the morning with a gigantic parade and this will be followed by the afternoon by a real old time stampede, and it is expected that the best riders in Western Canada will be here for the occasion, good money prizes being offered in all events.

During the two day celebration a monster Carnival will be run continuously and a dance will be held each evening.

Further particulars regarding the prizes, etc. will be available at a later date.

The following committees have been named to look after the various parts of the preparation of this wonderful event.

Advertising: E. J. Rouleau, C. H. Nash and J. A. MacDonald.

Sports: J. Atkinson, H. Jenson and Jas. Gordon.

Baseball: J. C. Spence, R. Wacker

JOHN LEISKE WINS AUTO ROBE

The Elks Dance on Friday night was well attended and those present had an enjoyable time. The music was furnished by three Drumheller boys and two Carbon boys, R. Lynn and J. Spence. During the evening an automobile robe was raffled off and John Leiske was the lucky ticket holder.

McQuade Wins Fountain Pen

Another dance was held in the Farmers Exchange Hall on Tuesday night under the auspices of the Ball Club and a fair crowd was present. The boys raffled off a fountain pen and L. G. McQuade won this with ticket No. 60.

and G. F. McGregor.

Stampede: H. N. McNaughton, to be the chairman, Neil Cunningham, R. S. Shaw, G. W. Appleyard, and R. R. Thorburn.

Carnival: J. J. Greenan and A. F. McKibbin.

Dance: Geo. Trepanier, Dick Gimble and S. Carney.

Parade: J. J. Ohlhauser, I. Gutman and J. H. Oliphant.

NOTE—A general meeting of the above committees will be held in the office of J. J. Greenan on Saturday evening, June 15, at 8 p.m.

Science To Rescue Agriculture

Recent developments in the realm of agriculture indicate that science is hastening to the aid of the farmer in Western Canada and that the time is not far distant when only those farmers who make an earnest study of their problems and apply to those problems the discoveries which are being made by technical experts can hope to forge ahead and secure for themselves and their families the comforts which fall to the successful business-man.

There are several major problems confronting the man upon the land in the West at the present time. Among these are the questions of reducing the cost of the production of cash crops, and the necessity of not only fighting, but of forestalling reduction in yields through the agency of weeds, insect pests and diseases.

High costs of production and reduced yields through weeds, insects and diseases form a combination which can only be beaten by the alert farmer. Only the farmer who calls to his aid the forces of science can hope to overcome this profit-robbing alliance.

Consider, for instance, the cost of producing a bushel of wheat. While accurate figures are difficult to secure it is definitely known that some farmers are able to place a bushel of wheat in their granary or in the elevator at a mere fraction of the figure which it has cost some of their neighbors to raise and harvest a similar bushel of wheat. It is a safe prediction that the cheap-production farmer has carefully studied the economic effects of the use of good seed, scientifically sound cultivation methods and the cheapest and best modes of garnering his crop. Not only has he done this, but he has kept some record of the cost of his various operations, thus enabling him to find out the weak spots and remedy them.

In this field of agricultural effort a great deal of pioneering work has been done by the farm implement companies, individual farmers of an inventive turn of mind, and leaders of agricultural engineering. It only remains for the average farmer to avail himself of the scientific work already done in this direction and apply and perhaps modify it to his own conditions and circumstances. Many are already doing so to their profit.

Then there is the problem of reducing the loss to profits through the prevalence of weeds which are annually taking a huge toll from farmers. Here, again, a good deal of research work has been carried on by experts in the employ of the Colleges of Agriculture, the Provincial Governments, and the Federal Department of Agriculture. It has been demonstrated beyond all doubt that methods can be adopted which will keep these pests within control in some cases, and in others that they can be entirely eradicated.

As an illustration of what is being done, investigations conducted by the Saskatchewan Department of Agriculture last year, as to the possibilities of eradicating some of the most serious weeds by the use of chemicals might be cited. It is true that the tests showed that the cost of chemicals as a weed destruction agency on a large scale, may be uneconomical but the value of such chemicals in eradicating small patches and preventing them from inundating the farm was clearly proved. A combination of chemicals, suitable cultivation methods, the use of clean and pure seed, will go a long way towards reducing the losses occasioned by weeds in this province.

Similar research work has been, and is being, carried on in the fight against diseases attacking wheat and other cereal grain crops. It is only necessary to refer to one of them—the efforts which are being made to breed a wheat that is not only resistant to the ravages of rust but that also contains those milling and baking attributes which makes Canadian hard red spring wheat so desirable in the export market. Recent reports indicate that success in this field of endeavor is crowning the efforts of technical workers, and it is probably only a matter of two or three years before the farmers will be able to seed their fields with a rust-resistant wheat of good milling and baking quality.

The foregoing are only one or two illustrations of the manner in which science is being enlisted to aid the farmer and to be successful in this day and generation, it is essential that the agriculturist inform himself of what is being done on his behalf and apply the results of the work of those trained men to his own particular problems.

Will Go In For Sheep

A number of farmers around Carman, Man., are interested in the proposal to bring in breeding ewes for distribution among them on terms of payment spread over three years, and a number of applications will be sent in from this district.

Authorize Court Action

Persons charged under the Criminal Code in Yukon territory with an indictable offence may, at the discretion of the minister of justice, be tried before a court in northwest territories. This authorization was given in a bill passed by the House.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick: You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Bonusing Immigrants

Feeling Seems To Be Veering Away From Coaxing People To Come To Canada

Three members of parliament, a Liberal, a Conservative, and a United Farmer, spoke the other day against continuing a heavy expenditure to induce immigrants to Canada. They represent farming districts in Alberta, Ontario and Quebec. There is reason to think that the view they express is gaining ground among farmers, and, perhaps less rapidly, among townspeople. The advisability of "coaxing" people to come to Canada is the point at issue.

There is room in Canada for more people, of course. There are people to spare in other countries, particularly in Great Britain. Sending agents abroad to invite people to come to Canada brings a response; there is no doubt about that. But perhaps more would come if we stopped inviting them. There never were so many people wanting to get into the United States as since the "quota" law was passed. The closed gate arouses curiosity as to what lies beyond it.—Edmonton Bulletin.

FEELING WORN OUT

When the Blood Becomes Watery a Breakdown Follows

How many girls and women suffer from headaches, pain in the back or side, poor appetite, nervousness and a constant feeling of weariness and palpitation of the heart at the least exertion. Of course, all these symptoms may not be present in any one case, but any of them show that the blood has become thin and watery, and good health can only be regained by enriching the blood. This should be done without delay. For this purpose nothing else acts so promptly and so surely as Dr. Williams' Pink Pills. Every dose helps to enrich the blood and tone weak nerves and thus brings new health and vitality to weak, and often despondent people. The truth of these statements is proved by the case of Mrs. Howard King, R.R. 5, Truro, N.S., who says: "A couple of years ago I grew so weak I could scarcely walk across a room without help. My blood was thin and I was almost breathless. I had taken Dr. Williams' Pink Pills on a former occasion with good results, and so decided to try them again. By the time I had taken a few boxes I felt much better, but I continued taking the pills for several months, by which time I could walk for miles with little effort. I do all my own housework and care for four children, so you will see what Dr. Williams' Pink Pills have done for me."

You can get these pills through any medicine dealer or by mail, post paid, at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Developing Vancouver Port

Further developments and improvements at the port of Vancouver, B.C., involving an expenditure of more than \$10,000,000 and bringing the port grain capacity to more than 21,000,000 bushels of storage are to be undertaken this year.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Russia Has Aero-Sleighs

Fitted With Airplane Propellers They Attain High Speed

Aero-sleighs, driven at 35 to 45 miles an hour by airplane propellers, recently travelled 2,100 miles from Moscow to Perm and back. Four sleighs took part in the complete run and five more accompanied them on the first day's journey.

The machines have a body of automobile design and look, except for the propeller, like an ordinary car mounted on runners. Under good conditions a speed of around 50 miles an hour can be attained.

Fur Farming Ranch

A Mr. Moore, from Minot, North Dakota, has bought a section of land near Fish Lake, Man., 18 miles west of Wawota, to be used as a fur-farming ranch, for foxes, mink, skunks, and raccoons, the breeding stock to come from the States.

Canada's War Legacy

Over 112 Millions Is Required For Interest On Debt

Canada's ordinary expenditures (excluding of course, her outlay upon capital account), exceed 355 million dollars per year. Of this great sum, nearly 163 million dollars is directly attributable to the Great War, although the war has now been over for more than a decade.

Interest on the war debt demands over 112 millions; war pensions, over 40 millions; soldiers' civil re-establishment, nearly 8 millions.

While expenditures attributable to the Great War mount up to almost 163 millions, the so-called war taxes raised less than 143 millions in the last fiscal year, the greater part of this being secured from the sales tax, stamp taxes and income tax.

War taxes constitute less than one-third of Canada's revenues. Customs and excise duties furnish the country with more than half her ordinary receipts.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Many Trails In Parks

Banff, Jasper, Yoho, Kootenay, and Glacier National Parks, in the Canadian Rockies all have trails well-marked and very pleasant to travel, some of which extend for 300 miles.

Canada Must Use Aircraft

Or Business Of Dominion Will Be Hampered Says General MacBrien

Major-Gen. J. H. MacBrien, of Montreal, spoke on aviation and its relation to commerce and war, at the opening meeting of the Advertising Affiliation's twenty sixth annual convention in Montreal recently.

General MacBrien declared that Canadian business would be hampered unless aircraft were fully utilized in the speeding up of communication. The highways of the air would girdle the world, he declared, and Canada must have her share. When telephone despatching, modern airports and safety devices became more general, aviation would be the safest form of travelling, he said.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

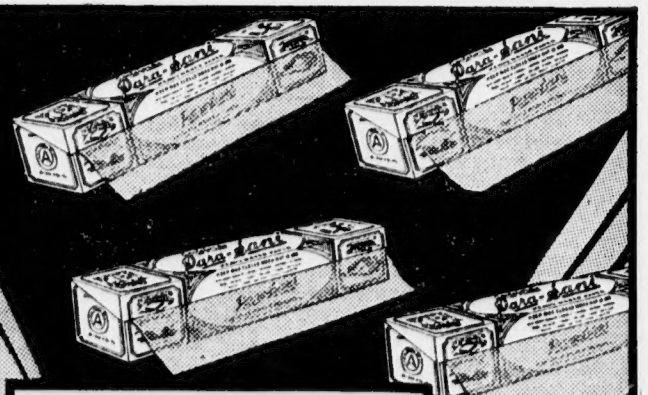

Spain's cure for auto speeding is a stone pile and a goodly supply of hammers. Three years is the average limit for exercise.

Keep Minard's in the Medicine chest.

The woman leader that used to strive to win women's rights now strives to get women to use them.

FREE! FARM AND STOCK ACCOUNT BOOKS

This valuable book was compiled to advertise CARHARTT OVERALLS—the best farmer's overalls in the world. One farmer wrote that he would not take ten dollars for his book. Write for yours to-day. Hamilton Carhartt, Manufacturer, Ltd., Toronto. Over twenty thousand Agencies.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

UNSWEETENED

WORLD HAPPENINGS BRIEFLY TOLD

The question of the eligibility of women for appointment to the Senate of Canada is expected to be considered by the Judicial Committee of the Privy Council shortly.

The United States has communicated to the League of Nations its agreement with Canada concerning radio communication between private experimental stations.

Dr. Hugo Eckener, director of the Zeppelin Company, emphatically denied the trans-Atlantic dirigible Grut Zeppelin had been sold or that he was negotiating for its sale in the United States.

The treaty between Canada and the United States designed to conserve the sockeye salmon fisheries of the Fraser River, will not be ratified by the Canadian parliament this session.

Use Minard's for the rub down.

Two convicts were talking.
"You know," said one, "it took John Bunyan all his life to write a story."

"Garn," was the reply, "it took me ten years to do a sentence."

Felt Tired and Miserable

"I took Lydia E. Pinkham's Vegetable Compound for miserable and tired feelings and it gave me strength to do my work. My nerves are better and I feel well and strong and have a good appetite. I sleep well and am in pretty good spirits and able to work every day now. I recommend the Vegetable Compound and you may use this letter as a testimonial."—Miss Delena Wallace, Union Street, North Devon, New Brunswick.

Canadian Fish For Britain

Large Supplies Of Fresh Fish To Be Shipped In Fast Refrigerator Steamers

Major Hugh A. Green, former director of fish supplies for the Canadian Expeditionary Forces, is in Ottawa from England conferring with the Government in regard to the purchase by a British firm, of which the Major is now managing director, of large supplies of fresh fish—at least 1,000 tons weekly—which will be conveyed to the British Isles by fast, refrigerator steamers plying between the Maritimes and Great Britain.

Signaller Deserted Post

Member Of Scots Guards Has Been Discharged From Army

George Silverwright, the Scots Guards signaller who shattered all British military traditions by deserting his post in front of Buckingham Palace not long ago, will not be a heroic figure for tourist and nursemaids' eyes any more.

He was found guilty by a court-martial and was sentenced to 112 days' hard labour in a civil prison and to be discharged from the army with ignominy.

Silverwright had pleaded that he was sleeping.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cabottee, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Southern Alberta Honey

Two and a quarter tons of apiary frames were delivered to the Riedel Honey Company plant at Taber, Alberta, the other day, shipped by the Alberta Box Company plant at Calgary. The company is preparing for a record season's production.

For Sprains and Bruises. There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

"Your wife is talking of going to France this summer. Have you any objections?"
"No, certainly not. Let her talk."

**I'm never too tired
to sleep now—**

Rested nerves make all the difference

Your doctor will tell you how chewing relieves nervous tension, how the healthful cleansing action of Wrigley's refreshes the mouth and tones you up.

Keep Your Baby Well and Strong

A baby's health and development depend largely upon the care and food it receives. Your infant should be bathed daily and fed regularly. If you cannot nurse your baby try Eagle Brand Milk.

The foremost infant food—made from rich cow's milk and granulated sugar—especially for babies. Recommended by physicians everywhere on account of its quality and uniformity.

In this paper from time to time you will find an advertisement of Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, 140 St. Paul St. West, Montreal and they will send you, free of charge, a very helpful baby welfare book containing authoritative feeding directions and a vast amount of useful information on the care of baby. Also ask for Baby Record, a diary of baby's progress.

Minard's Liniment for sick animals.

Northern Wireless Station

Report Shows Cost Of Installation and Maintenance Of Eight Stations Serving Northland

A report concerning the eight wireless stations in Alberta and in the far north, operated by the Department of National Defence—at Akavik, Herschell Islands, Dawson, Mayo, Fort Simpson, Fort Smith, Fort Resolution and Edmonton—show the cost of construction of the eight stations to have been \$156,330, and that of annual operation \$98,258.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

We are using and destroying our forests four and one-half times faster than we are replenishing them.

SUNDAY SCHOOL LESSON JUNE 16

JUDAH TAKEN CAPTIVE

Golden Text: "Righteousness exalteth a nation; But sin is a reproach to any people."—Proverbs 14:34.

Lesson: 2 Kings 25:1-21.
Devotional Reading: Psalm 107 10-16.

Explanations and Comments

The Siege Of Jerusalem, verses 1-3.—In the ninth year of Zedekiah's reign, 586 B.C., in the tenth month according to the Babylonian calendar, which numbered its months from the spring season, the tenth month corresponding to our January, and on the tenth day of the month, Nebuchadnezzar, King of Babylon, came with his army and besieged Jerusalem. "The nation never forgot the month, and the day on which the armies of Chaldea finally invested the city. It was felt as the day of the deepest gloom by the Israelite exiles, Ezek. 24. It has been commemorated as a fast, the Fast of Tebeth, ever since in the Jewish Church."—Dean Stanley.

Nebuchadnezzar's army encamped around the city and built forts against it. The forts were probably movable towers from which missiles could be discharged over the city walls. Jerusalem held out for eighteen months. From Jeremiah 34, 7, we learn that a part of Nebuchadnezzar's troops were engaged in attacking Lachish and Azekah during this time, and from Jeremiah 37, 5, 11, that the reported approach of an army from Egypt caused a brief raising of the siege. The siege was resumed, and at last famine became so acute in the city that there was no bread for the people. Read the account in Jeremiah 21:7-9; Lamentations 4:8-10; 5:10.

The Fate Of Jerusalem, verses 8-10, 13-17.—On the seventh day of the fifth month, Nebuzaradan, the captain of Nebuchadnezzar's guard (literally, "chief of the executioners," the king's bodyguard to whom such duties belonged), came to complete the destruction of Jerusalem. The work of devastation was thoroughly done. The gold and silver vessels, and the pillars and vessels of brass of the temple were saved to be carried to Babylon, and then the sacred temple, on which such a passion of love had been lavished, was razed to the ground. The king's palace and every great house in the city were burned, and the city walls were broken down.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Bread 76 Years Old

A small loaf of bread, said to have been baked Good Friday, March 22, 1853, is on exhibition here. It is owned by Mrs. Bee Hough Bartlett, 89, and was baked by her mother, Mrs. Bartlett says a legend that a loaf baked on Good Friday will endure forever prompted its making and its preservation for 76 years.

Professor's Wife—The war started the 1st of August, 1914, didn't it?
Prof. (absent-mindedly)—No, my dear, we were really married in 1912.

"Skinny" Men!

Gain Weight Quick

New IRONIZED YEAST adds pounds in few weeks. Results guaranteed—or pay nothing

Men and women everywhere write that Ironized Yeast added 5 to 15 pounds often in few short weeks. Rounds out muscles. Gives manly color and clear, rosy skin. Builds strength and energy. Makes real men out of "skinny" weaklings. They ask—how does Ironized Yeast work so fast?

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

Pleasant tablets. No "yeasty" taste. No gas or bloating.

Don't be "skinny" or weak any longer. Let Ironized Yeast give you a real man's arms and legs, and a clear, rosy complexion. Ask your druggist today for full size treatment. If not delighted with quick results, get your money back. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 426-M8.

Canadian Choristers

Make Splendid Showing In Competition Held In New York

Americans are accustomed to Canada winning high honours at international stock and grain shows, but a surprise was sprung when two Canadian male choirs went to New York and captured second and third places in competition with the best male choirs of the United States. These were the Ottawa Temple Choir, and the Peterboro (Ontario), Male Chorus, awarded two of the first three places in the "B" Class of the international choral contest. First prize went to the Baltimore and Ohio Railroad Glee Club of Baltimore, with 88½ points out of a possible 100, the Ottawa Temple Choir was next with 87½ points, and the Peterboro Male Chorus third with 85½ points. The contest was one of the features of a two-day choral festival held under the auspices of the Associated Glee Clubs of America, in which 75 choirs from the United States and Canada took part, totalling 4,000 voices. In the contest in which the two Canadian choirs scored second and third places, 14 choirs were entered.

Government To Treat Sands

Announcement is made that the Dominion Government will build a \$30,000 plant at Edmonton for the extraction of bitumen from tar sands. These sands are contained in vast deposits in the Athabasca district.

On Your Holidays

Be sure to take Minard's along. It will come in useful for any of dozens of emergencies.

Fort McMurray Salt Fields

Sir Thomas Tait of the Canadian Salt Company has just completed an examination of the salt fields at Fort McMurray with a view to exploitation.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

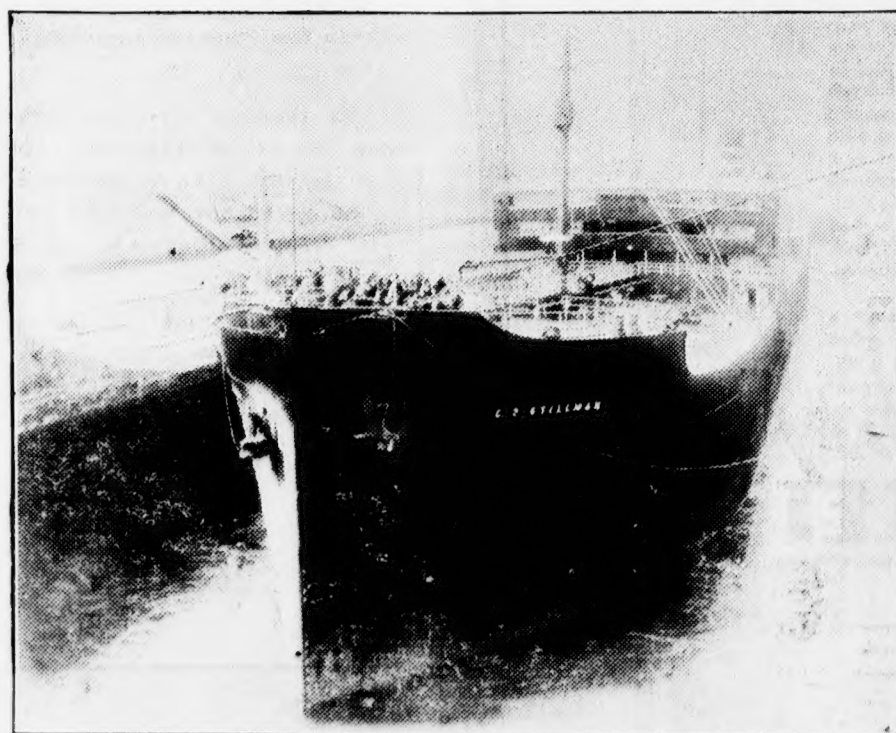

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

IN THE PANAMA CANAL

The world's largest tank ship, the "C. O. Stillman" passing through the locks near Colon. The Stillman is named after Mr. C. O. Stillman, of Toronto, President of Imperial Oil Limited, her owners.

REVISION OF GRAIN ACT IS RECOMMENDED

Ottawa.—Complete revision and consolidation of the Canada Grain Act at the next session of Parliament is recommended in an unanimous report tabled in the House of Commons by the Parliamentary Committee of Agriculture.

The chief recommendations contained in the report are the following:

Amendments to the Canada Grain Act to prohibit mixing in the four statutory grades of red spring wheat, namely: No. 1 hard, No. 1 Northern, No. 2 and No. 3.

This amendment would not become effective until August 1, 1930.

The outturn standard for all terminal elevators of all statutory and commercial grades of red spring wheat be a composite sample equal to 75 per cent. of the average quality of the grade and 25 per cent. of the minimum quality of such grade at the primary inspection points. This provision would be made effective on August 1, of this year, and would apply to the current year's crop.

The board of grain commissioners to be composed of three members as at present. In addition to these there will be four assistant commissioners, who are to be located, one in each prairie province, and one at the head of the lakes. The commission itself would be given power to name its own headquarters.

Certain increased powers to be given to the board to assess loss and damage in any case where a complaint is made, with power to enforce its findings in any court of competent jurisdiction. Appeal from such may be allowed in the district or county court in which the person entering such complaint resides.

The recommendation is made that the standards boards be constituted on a different basis from that now prevailing. The producers would have one-half of the representation on the board, which would be comprised of the following:

The Board of Grain Commissioners, the chairman of the Board of Grain Appeal, the chief inspector, the chief chemist, the Dominion cerealist, one representative of the millers, four representatives of producers from Alberta, five from Saskatchewan, three from Manitoba, and one from British Columbia.

Discuss Tariff Question

Canadian Manufacturers Association To Make Pronouncement

Halifax, N.S.—"The manufacturer who takes one view on protection for what he produces and another on what he buys not only is inconsistent but he undermines the very position he seeks to safeguard," was the opinion of President L.W. Simms at a session of the Canadian Manufacturers' Association, at which the report of the tariff committee was adopted with a motion that a committee be appointed by the president to draw up a pronouncement on tariff matters.

Canada's tariff problem was different from that of any other country, said H. M. Jaquays, Montreal. On one hand were the agriculturists entitled to special consideration in their marketing activities. Industrial development was essential. Any tariff policy must be shaped toward the goal of cheaper production and requests to the tariff committee should always be qualified to that end.

Passes Railway Bill

Ottawa. The Senate committee on railways recommended without amendment the bill authorizing the Canadian National Railways to construct terminal facilities in Montreal at an estimated cost of \$51,409,000.

C.N.R. Earnings

Montreal. The Canadian National Railway gross earnings for the ten-day period ending May 31, 1929, were \$7,549,099, as compared with \$7,545,600 for the corresponding period of 1928.

W. N. U. 1789

Fear Break Between China and Russia

Trouble Arising Over Arrest Of Soviet Officials In Manchuria

London, England.—Russian troops were said by a Peking dispatch to the Express, to be massing on the Manchurian frontier to prevent thousands of Chinese from leaving Russian territory. The flight of the Chinese was in fear of arrest and deprivation of their belongings in retaliation for the arrest of Soviet officials in Manchuria.

Rengo news agency of Japan reported that Soviet consul general Kuznetsov, of Mukden, was under arrest at Hailar and that intense anxiety was felt in the Harbin Soviet community where a complete break between Russia and China was feared.

The strained relations between the two countries began with Chinese raids on Soviet consulates in search of documents to support charges that Communists were actively interfering in Chinese internal affairs. The raids were followed by a sharp note of protest by the Soviet virtually suspending diplomatic immunity of Chinese officials in its territory.

Ramsay MacDonald To Lead

Accepts King's Invitation To Form A Cabinet

London, England.—Right Hon. Ramsay MacDonald, leader of the Labor party, accepted the King's invitation to form a Cabinet to replace that of Right Hon. Stanley Baldwin, Conservative Premier, who resigned. Official announcement of the acceptance was made at Windsor Castle, where the King was ill, a few minutes after the Labor leader had called and left to go back to London.

He arrived at 11:04 a.m. with his son Alastair MacDonald and Lord Arnold.

The King's equerry, Colonel Seymour, escorted him inside the castle. He remained slightly more than an hour, leaving at 12:18.

It was the second cabinet Mr. MacDonald has been called upon to form. The first was that of more than five years ago when the Labor party, with the help of the Liberals, was given its first chance at the control of the British government.

His Majesty's Condition Is Improving

Bulletins Issued By Physicians Show Satisfactory Progress

Windsor, England.—King George suffered no ill effects from the excitement of receiving the outgoing and incoming Prime Ministers on successive days.

Three physicians visited the monarch recently and issued a bulletin showing satisfactory progress.

Complete recovery probably will be slow, but all keen anxiety has passed from the royal household.

Appreciate Their Leader

Ottawa.—Paying tribute to the party leadership of Hon. R. B. Bennett in parliament this session, Conservative members and senators, united in a dinner tendered to him. Expressions of loyalty and appreciation for Mr. Bennett's leadership were voiced.

WINS ORATORICAL CONTEST

Roche Pinard, 18, of Montreal, whose eloquent speech of "Canada Among the Nations" won him the Canadian Oratorical contest at Toronto on May 22. Pinard will represent Canada at the international contest in Washington.

Saskatchewan Leads In Scout Training

Had More Leadership Courses Last Year Than All Other Provinces Combined

Regina.—Saskatchewan was able to report more training courses for scout leadership than all the other provinces combined during the year ending May 31, 1929, it was stated by W. J. P. Selby, provincial secretary of the Boy Scouts Association. More than 525 adults took the indoor Gilwell training courses, 409 of these being granted certificates from Dominion headquarters.

The figures were disclosed at the annual meeting of the Canadian General Council of the Association at Ottawa, which reported an increase of 86 troops and 273 leaders in the Dominion during the year. There are now 53,000 scouts and leaders in Canada.

As an indication of the constant progress of the organization, it was stated that 34,170 scout rank and proficiency badges had been awarded in 1928-29, an increase of 5,626 over the preceding year. The report of the welfare work of the association showed that, through 93 centres, toys had been distributed to more than 50,000 children last Christmas, including 5,000 children of newly-arrived immigrants.

Western Canada Air Mail

Negotiations With Various Airway Companies Still Proceeding

Ottawa, Ont.—Negotiations between the post office department and the various airway companies of Western Canada in regard to the awarding of a contract for the carriage of mail from Winnipeg west to Calgary and Edmonton and intermediate cities are still proceeding, but it is considered most improbable here that action will be taken until after the close of Parliament.

Officials of the department said recently that the problem presented by the desire of several companies to share in the contract appeared no nearer a solution than several weeks ago.

Flames Creates Havoc In Northern Mining Town

Cranberry Portage Suffers Heavy Loss Through Fire

The Pas, Man.—Surrounded by a wall of fire, forest rangers, railway construction workers, miners and every available able bodied man in Cranberry Portage, little Manitoba mining town, on the shores of picturesque Lake Athapapaskow, battled to save what remained of the settlement after the flames had brought destruction the day before.

It was the townsite of Cranberry Portage, constructed only a few months ago, across the railway tracks from what is now known as the Old Town, that was destroyed when flames from a forest fire swept in from the north.

Within 20 minutes, a score of dwellings, several business buildings, the railway station, and hospital, were smouldering ruins, and 200 persons out of the town's 800 population had been rendered homeless. There were no casualties. The property loss will run into thousands of dollars and many small personal fortunes were swept away. No insurance was carried, as Cranberry was considered a fire hazard by the underwriting companies, surrounded as it is by forest.

Mount Vesuvius In Eruption

Heavy Pall Of Smoke And Ashes Hangs Over Naples

Naples.—Huge clouds of smoke, laden with ashes, from the belching throat of Mount Vesuvius, hung over Naples and turned the brightness of noon into a kind of twilight.

Neapolitans were unable to see their familiar land mark which was clouded by the screen of smoke issuing from its crater.

The Associated Press correspondent visited Terzigno and found conditions terrible. Families were withdrawing with all their belongings and cattle. They flocked into the churches on the line of retreat, invoking Saint Gennaro and praying before shrines.

Troops took possession of villages to prevent marauding after the inhabitants had departed.

Forest Fires In Japan

Damage To Property Already Over Three Million

Tokio.—Heavy rains over the island of Saghalien and Yokkaido have greatly lessened the threat from forest fires there, although resumption is feared when the weather dries. Fire fighters are redoubling their efforts hoping to end the menace while the rain continues.

The governor-general of Saghalien reported losses on his island included 41 dead, 163 seriously injured, and 1,206 houses destroyed, 4,710 homeless, and about \$3,250,000 damage to urban property. Damage to the forests had not been estimated.

Wrong Man Convicted

London, England.—After serving three months in prison, Ernest Lee, 35, received a pardon and \$500. It was found after he had served this time on a charge of posing as a brewer's agent, and collecting a commission, that another man was guilty. The guilty party, already in jail on another crime, confessed.

ESTIMATES FOR DEFENCE MEET WITH OPPOSITION

Ottawa.—Canada had denounced war as a national policy and for this reason it was inconsistent that the estimates in the department of national defence should show an increase, declared Miss Agnes MacPhail, Progressive member for South East Grey, in the House of Commons.

Miss MacPhail was emphatic in opposition to the national defence estimates and during the consideration of cadet services moved an amendment to reduce the amount of the appropriation from \$500,000 to \$1. The amendment was defeated 56 to 15.

The only woman member of parliament declared she would like to see Canadians take the stand that war should be forever abandoned.

J. S. Woodsworth, Labor, Winnipeg North Centre, complained that the supplementary estimates would bring the total for the department to more than \$21,000,000. While it was true that only a few reckless adventurers or ruthless profiteers would deliberately attempt to foster another war, a conflict was quite possible so long as conditions remained as they were. The pile up debts of the last war constituted all the memorials Canada needed.

Mr. Woodsworth declared that as the militia estimates amounted to \$20,000,000 he did not think it would be too much to ask that \$200,000 be spent on peace.

The money could establish a chair or international relations in every university in Canada. It could provide for the sending of three or four Canadian students from each university into foreign countries to study foreign affairs. It could provide for the training of young men desirous of entering the ambassadorial service. If we were to have peace we must make preparations for it and be willing to spend something on peace.

Col. A. L. Ralston, minister of defence, said it was not correct to say that Canada spending \$20,000,000 or proposed to spend it under the estimates, on her militia. As a matter of fact the vote this year for military services was \$11,065,000 whereas in 1913-14 when more value could be secured for one's money the vote for military services was about quarter of a million dollars higher. Canada was in a happy position geographically and at no time did the United States enter as a factor in the country's defence budget.

Canada had only one regular soldier to every 3,000 individuals. The permanent force was not even a decent police force. The real defence force of the country was the non-permanent active militia.

Canada was not given credit for the length to which the country had gone in disarmament. No nation spent less on warlike activities. Brig.-General J. A. Clark, Conservative, Vancouver-Burrard, asked if it were not possible that instead of using a large civilian staff for the administration of the department, clerks could not be recruited from among the members of the permanent force. G. G. Coote, U.F.A., Macleod, asked for the total number of cadets in Canada. There were 133,403. Col. Ralston said. A large portion of the grant for cadet service was expended to provide physical training for boys' schools throughout Canada.

Going To South America

Tide Of Immigration Now Running In Southwesterly Direction

Rio De Janeiro, Brazil. The tide of emigration, which for decades flowed westward across the Atlantic to New York and other American ports has definitely set in a southwesterly direction.

European steamship companies are operating larger and faster steamers to South America, than were the pre-war emigrant carriers of the North Atlantic, with much better accommodation. Under these conditions Brazilians believe that their country is on the verge of a great increase in population with consequent agricultural development.

Ceremonial planting at La Pas, Peru, in which the whole community joins in prayer for a bountiful harvest. The photograph is of a painting by I. E. Samson, O.S.A., a Canadian artist.

DO NOT INVITE FAILURE

The dates for the year's examina-
tions in connection with the Depart-
ment of Education have been an-
nounced. Students are looking forward
with anxiety to this critical period in
the year's experiences. Some of them
are already trying to decide what they
will do when they fail in the year's
examinations. Naturally that course
takes the spirit out of their study. "In
the lexicon of youth," wrote Bulwer
Lytton, "there is no such word as
fail." The youthful, ardent, hopeful
spirit does not take failure into ac-
count. It assumes success and so is
far more likely to win it. Young folks!
Put on your courage and determina-
tion to win, make your best possible
preparation and go into the examina-
tions, when the time arrives, bound
under all circumstances to be success-
ful.—Didsbury Pioneer.

Lowest Price in Frigidaire history

THE new Frigidaire repre-
sents the greatest value ever
offered in electric refrigera-
tion. It embodies every essen-
tial Frigidaire feature—including
the famous Cold Control. It is offered at the lowest price
in Frigidaire history—and with
General Motors easy payment
terms. It operates from farm
electric plants or central sta-
tion current. See it right away.

BRUCE ROBINSON
ELECTRIC LTD.

— DEALER —
Calgary, Alta.

not only to golfers but anyone who
knows golfers and that's all of us. It
is a very realistic description of that
hard-working game called "golf."

Now comes the time of ar-
when the sound of the nib
in the land, and the wild and u-
able divott shakes off its win-
derwear and starts prowling around
fairways and greens in search of easy
victims. How the heart of the golfing
fanatic rejoices at the approach of the
season when he can once again pan-
der to a depraved and peace-disturb-
ing vice. Forsaking home, business
engagements, devotional duties, credi-
tors and blond stenographers, he hies
forth to an expensive hand-manicured
sheep pasture located "far from the
maddening crowd's ignoble strife"—and
three miles from the street car. Don-
ning the wierd and outlandish gar-
ments of his calling and armed with
a collection of strange, odd-shaped
weapons, he proceeds to carve the
hand-kept and segregated sod into
varied geometric patterns, diverging
occasionally to do a little tunnelling
and excavating.

It is an eye-filling and humorous
sight to see a middle-aged addict of
the game—especially one plentifully
endowed with prime leaf lard—"mak-
ing ready" to whale the everlasting
daylights out of a small white-washed
rubber pill. Wierd and peculiar are
his postures; strange and inexplicable
are his antics, to say nothing of his
language, which at all times is loose-
jointed, descriptive and saturated with
sulphur.

Placing the ball in a defenceless po-
sition, and seemingly without the
slightest provocation, he attacks it in
a ferocious fashion as though to mar
its usefulness forever. The ball eludes
its assailant and leaping into the air,
dives into the convenient wrought-
iron shrubbery and disappears from
human ken or vision.

Now comes the supreme test of the
game. To successfully track a malign-
ant, demoniacal-minded and evil-in-
tentioned golf ball, calls for wood-
craft facilities of no mean order. The
successful golfer must possess the un-
erring scent of a blood-hound, the
tenacity of fly-paper, the hopefulness

of an owl, the reasoning of Sher-
lock Holmes, and the ability to loon
placid and unperturbed whilst red,
white and blue anarchy are sweeping
through his corpora callosa.

The ball does not always success-
fully elude its pursuers. Cases have
been known (principally in Scotland)
a golf ball has been located the
day—but this only after long
arduous searching.

Some attention should be directed to
the costumes worn while playing the
game. Many wierd and outlandish sa-
torial absurdities are always seen up-
on the links, and patterns run the ga-
mut through angles, squares, cubists,
rail-fence and rattle snake designs,
horse blankets, Scotch plaids and oth-
er bewildering arrangements, all done,
like Joseph's coat of old, in many
startling colors.

Too many regard "golf" as a relaxa-
tion from business cares, a source of
pleasure, an opportunity to tempor-
arily evade bill collectors, or a chance
to wear funny clothes; but this is not
all of it. To painstakingly search for
hours for strayed balls, to dig up
acres of sod, to excavate caves and
cellars in sand lots, to tramp for
hours o'er hills and hollows beneath
a blazing sun, while a small under-
sized caddy staggers along under a
shifting load of shelf and heavy hard-
ware, calls for stamina, fortitude and
endurance.

When darkness falls the golfer re-

The Desert Song

— BY —

VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. picture of this novel. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

CHAPTER IV.

Margot Bonvalet was alone. It was late afternoon and she had just given Paul Fontaine her answer. General Birabeau would marry them that night. She was allowing herself a few last moments of meditation. Leaning against a tremendous mosaic archway, she stood on the balcony and gazed at the vast desert. It awoke in her heart an infinite longing, the ache for an indescribable something that would never be fulfilled. This was not the wedding day of which she dreamed.

Her reverie was broken as a man's figure vaulted the railing behind her. She gave a startled cry, for the stranger was clad in a burnoose of flaming scarlet and his face was hidden behind a protecting mask.

"Oh, you're the Red Shadow!" she managed to exclaim when she had recovered her breath and had steadied herself against a chair.

He bowed gallantly. "A votre service, Mademoiselle."

Margot assumed a dignity that she did not feel. "How dare you come here?" she demanded.

"I heard you call for romance," her visitor explained. "I, too, long for romance and I would dare anything to get what I want. But what would you dare, that's what I came to find out."

The girl ignored the question which the Red Shadow had asked with gusto.

"Do you realize that one scream from me would wipe out the Red Shadow?" she asked him.

The mysterious stranger shrugged his shoulders. "You wouldn't call for romance in one breath and toss it away in the next."

The ardor of his voice grew as he leaned toward her. "Will you come with me?" he begged. "If you come, I promise not to hold you, but you will stay."

Margot had been clutching her riding crop to give her confidence. Now she raised it quickly. With it she struck the man before her straight across his face. He buried his head in his arm to alleviate the pain and reeled against the balcony rail.

But the girl's indignation quickly cooled. She was alarmed at what she had done. "Oh, oh, I've blinded you!" she cried, running over to him.

But the Red Shadow had by now recovered himself.

"No, Margot, you haven't blinded me, you've just opened my eyes. Now I'm going to make you love me!"

Before she could protest she felt his arms around her, felt him crush her body against his own, felt his mouth seek hers. For a wonderful moment she yielded. But the remembrance of her promise to Paul restored her to her senses and she drew herself away from him.

"General Birabeau! Paul! Paul! Come quickly."

With a nimble leap, the Red Shadow scaled the balcony once more and, blowing her a kiss, was gone.

A moment later she was surrounded by the officers of the garrison. In breathless sentences she told them of the outlaw's visit, of his presumptuous advances. General Birabeau was inclined not to believe her. He thought that the episode was an invention of the girl's feverish imaginings, inspired perhaps by her successive disappointments in Paul. She found a sympathetic listener when Pierre came in a little later.

"What did he look like?" he asked.

"He was all dressed in red, Pierre. His complexion is no darker than yours. He was masked, but his eyes seemed to gleam through. He's a big man—about a head taller than you—and, oh, how strong he is!"

At this juncture, Captain Fontaine, who had heard the report of the Red Shadow's visit, came hurriedly in. He could not understand how the leader of the Riffs had gained access to the house, for every entrance and exit was carefully guarded by troops. However, he considered the man's effrontery in coming a personal challenge to him and determined to run him down that night. Already the signal fires were blazing on the darkening horizon. The Riffs were calling their leader and he would answer them as always.

While her fiancé prepared to leave, Margot was both disappointed and relieved. After all, he was as she had known him to be, her lover only when the bugle did not summon him to military adventure. With the menace of the Red Shadow now uppermost in his mind, romance was again forgotten. He would lead a cavalry troop into the desert at once to kill the Red Shadow, for he realized that the natives loved this man and might revolt if he were taken prisoner.

Again alone, Margot waited—she knew not for what. A sudden volley of shots in the courtyard told her that the Riffs and the French were in active combat. The outlaws had dared now to attack the garrison itself. She felt the tiny revolver in her pocket and was about to seek an even surer safety when the Red Shadow entered the room once more as mysteriously as before. She whipped out the gun and levelled it at him.

"Come a step nearer and I'll fire!"

For a moment he said nothing but only looked at her very steadily. When he noticed that she wavered, he whispered softly, "Put down that gun!"

Quickly she raised it to take aim, but more quickly still he caught her wrist and turned it until the weapon fell to the floor. And before she could make further protest he had picked her up in his arms. In vain she fought to free herself. In vain she called for help. There was none to aid her, for every soldier in the garrison was fighting grimly to keep off the attacking Riffs.

Outside, his white horse waited for him. In an instant he had thrown the girl across the saddle and had mounted. The pony galloped wildly forward, far, far across the sand into the mystery of the desert night, into the vast unknown where romance and love are found. Margot Bonvalet no longer struggled. She clung to the rider, who held her close while he spurred his horse on to a greater speed, and the world she had known was left far behind.

CHAPTER V.

The Red Shadow did not take his beautiful hostage to the Riff's encampment in the hills. Instead, he turned his horse's head to the distant oasis in the midst of which towered the magnificent palace of Ali Ben Ali. Riding close at his heels came twenty of his own men who

Christie's Biscuits

The Standard of Quality Since 1853

carried off Bennie and Susan as their prisoners. Their leader lifted Margot from his saddle and gave her into the care of his soldiers while he went to greet his host.

Ali Ben Ali received him in a great hall sumptuous with oriental luxury. Its highly polished floor was inlaid with rare mosaics. Low divans covered with priceless rugs invited one to voluptuous ease. Within close reach of them were great brass bowls heaped high with luscious fruit. Or if one preferred smoking in the fashion of the east, there were low tables holding porcelain hookas, the bubble pipes from which heavy oriental tobacco is inhaled through water.

The great Sheikh who had been amusing himself with some dancing girls from Spain, dismissed them when his guest approached. He stretched out his arms, saying "Hail, friend!"

The Red Shadow reciprocated this gesture of goodwill.

"Once more, Ali, I beg your kindness and shelter."

"Should not I protect the protector of my race? What is it this time? Have you burned down a prison or kidnapped a tax collector?"

"This time it's a little different!" admitted his visitor with a smile.

"Ah, yes, to be sure, you bring two women captives—that is un-

usual. Many times I have offered you the hospitality of my Harem but you have always been as shy about women as—as a Christian."

From the Garden, Sid El Car entered with soldiers guiding Margot and Susan. Both of them were blindfolded but the Red Shadow immediately ordered the bandages removed from their eyes.

"Where's my Bennie?" demanded Susan, querulously.

Margot, still tugging at the ropes that bound her hands, cried "Where's that brute—that outlaw—that kidnapper!"

The Red Shadow bowed very low before her. Sheikh Ali Ben Ali ventured a suggestion of hospitality. But he addressed himself to the leader of the Riffs, "I presume you want them to get the same treatment as my women here—you want them bathed?"

The Red Shadow nodded, "By all means!"

"How dare you?" protested Margot. "As a French citizen, in the name of the republic of France, I demand to be released!"

Firmly but quietly, two slaves led the women away. Susan relished the adventure as much as Margot shrank from it. Some Riffs had brought in the captured journalist, Bennie Kid, who was already rousing his secre-

tary's jealousy by his not too furtive glances at the seductive Spaniards.

"Oh, Bennie!" squealed Susan, "he's taking me upstairs. But somehow, Bennie made no movement of protest."

(To Be Continued.)

Large Numbers Of Repatriates Return

1,500 Canadians Returning To Canada From United States

During 1929, about two thousand French-Canadians will be repatriated from the New England States to take up farming in Quebec, Ontario and the far west of Canada, according to estimates of the Colonization Department of the Canadian National Railways. In 1928, through movements in which the Canadian National was directly interested, 1,500 Canadians, most of them natives of Quebec, returned to Canada to go on the land.

"What is a road hog?"
"The other driver."

DOMINION MUSHROOM CO. TORONTO

SKYWAYS AND HIGHWAYS

In the sky and on the highways, transportation moves at a faster tempo. The speed records of yesterday are commonplace today.

Greater speed is made possible by better and faster motors which call for a new margin of lubricating safety. Oils that were "good enough" ten years ago won't do today. Marvelube, a pure, carbon-free, full-bodied oil made from Peruvian Crude, is the preference of

Canadian aircraft operators and motorists.

Over half a million motorists in Canada have proved Marvelube's superior qualities. 90 out of every 100 miles flown by aircraft in Canada are travelled with Imperial Products.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. Consult the Marvelube Chart at Imperial stations and dealers.

BILIOUSNESS RELIEVED

CARTER'S LIVER PILLS

QUICKLY

This Purely Vegetable Pill quickly starts the bile flowing, gently moves the bowels, the poisons pass away, the sour and acid stomach sweetens, and biliousness vanishes. Sick Headache, Indigestion, Bad Breath and Complexion improve by the gentle action of these tiny vegetable laxative pills. All Druggists 25c and 75c red pkgs.

CARTER'S LIVER PILLS

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,535 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour, on the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

(Continued from front page)

to commence work on the oiling and sanding of the greens, etc. and this work will be started immediately. In the past there have been a number of greens where grass and weeds have grown up through the sand and this year a new experiment is to be tried in the form of Atlanteide Weed Killer. If this proves satisfactory the Carbon Golf course will be greatly improved. At the present time the Carbon course is in good shape although the grass and buck brush is beginning to get long.

Hesketh Sparklets

Hillo folks! Here we are again after a couple of issues went by without any news; however, we will make up for it now.

The Carbon Tennis club visited us on our courts Sunday and a good showing of our Tennis players was made manifest.

(In the Hesketh notes by our correspondent the scores were the same as those given by a local Tennis fan and as these are already in type we have put them in here with all apologies to correspondents)

Men's Doubles—H. Bingham and T. Heath defeated L. Poxon and C. H. Nash of Carbon 6-2, 6-0

L. Brown and A. Hunter of Hesketh defeated A. Braisher and V. Hawkins of Carbon 6-1, 6-5.

H. Willson and J. Taylor of Carbon, defeated R. Reid and L. Saunders of Hesketh, 6-2, 6-2.

Ladies Doubles—Mrs. Laing and Miss K. Ramsay of Carbon defeated Mrs. Hunter and Mrs. Brown, Hesketh, 6-1, 5-6, 6-2.

Men's Singles—H. Bingham defeated L. Poxon of Carbon 6-2, 6-3.

L. Brown of Hesketh defeated V. Hawkins of Carbon 6-4, 6-1.

The ladies Singles, Mixed Doubles, Junior Ladies Singles and Junior Men's Singles, as called for in a full club match, were not played as Hesketh did not have players for these events.

The Hesketh Tennis Club are to be congratulated on the progress they have made on their first season.

Taking the whole afternoon through all appeared to enjoy themselves and the two towns in these small events join together in a spirit of good fellowship and in this way no matter who wins or loses all feel that an afternoon sports of this kind is an afternoon well spent.

The Chautauqua now underway in Carbon is meeting with approval and several of the local people are enjoying the programmes that are being put on from night to night.

Mr. Thos. Heath has spent quite a busy time this week loading cars. He appears to enjoy same, however, and says a little work does not do us any harm. Eh, Tom?

Mr. and Mrs. G. H. Price entertained visitors from High River over the week end.

Come everybody. Put more pep in your home town sports. What sport you get out of anything is what you put into it yourself, so let us all join in and make this year a banner one for Hesketh as for sports.

ALTA. INSTITUTE OF CO-OPERATION

LETHBRIDGE

OLDS

VERMILION

JUNE 24th - 29th, 1929

Arrangements have been completed for the holding of three separate Institutes of Co-operation in the Province, similar to the one which proved so successful at Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock, dairy products and poultry and eggs, and the consumers' co-operative movement will be considered.

Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

Plan to attend the Institute nearest your home, and in order to ensure accommodation, communicate at an early date with the registrar—

**Who Does Your
Printing?**

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
